WARNING SIRENS

Each time the outdoor warning sirens sound, do not assume that you should head to the basement. There may be situations where the community needs to get information out to the public ASAP. For example, there may be a hazardous material incident in the area.

So what should you and your family do when sirens are heard? Tune in to your local radio station! In the McLeod County area, tune in to KARP 106.9 FM or KDUZ 1260 AM. Do **NOT** call 911 to find out what is occurring. By doing so, you may be delaying help to a person who really needs it!

Sirens are tested on the 1st Wednesday of every month, except during inclement weather. Please note that there is no tone to announce the passing of a current threat.

Questions? Contact the Winsted Police Department at (320)485-2600.
